Standing for council is an opportunity to join the Shire team to further progress vital economic, environmental, cultural and development opportunities across our Shire, building on our past to create an exciting future.

I believe representation must be inclusive of a range of perspectives across the whole Shire to ensure all views are heard and considered.

A Shire resident since 1995, I have actively enjoyed my voluntary involvement and leadership across many community organisations, witnessing first-hand the central role volunteers play within our Shire.

As a partner in our Borden farming enterprise, with a professional background in politics and journalism and Shire employment in communications and project management my skill set aligns strongly to community, collaboration and strategy.
