Disclosure of Interest:	Nil

Monthly Works Report – May 2022

Roads

An emulsion coat was applied to Kwobrup Road where it was determined that the latest section to be sealed had lost stone. The possible cause was identified as being the sweeping taking place too soon after the seal was applied. The emulsion will waterproof the road and stop potholes forming after rain. These works were funded.

Patch repairs were carried out on the Gnowangerup Tambellup Road after a section repaired by the contractor failed. A contributing factor was the material under the top 300mm that the contractor had worked on.

Maintenance Grading – 160 Hours

Maintenance Grading was carried out on the following roads: O'Neill; Rabbit Proof Fence; Cowcher; Yates Day; Parks; Gleeson; Black; Cardelup; Stutley; Hinkley; Woodlands; Moores Dam; Holden; and P.Jones.

Pruning

Tree pruning was carried out within the three town sites ensuring compliance with power line clearances.

Pruning works also occurred on: Soldiers Road; White Road; Xmas Farm Road and Clear Hills Road.

Drainage

Drainage works were carried out at the Gnowangerup Complex to alleviate water build up at the end of the football oval.

Pump repairs were carried out at the Ongerup complex. During the period that the pump was away for replacement a length of the power cable was stolen.

Other

Graffiti was removed from the Ongerup War Memorial.

The depot mezzanine floor project was completed providing much improved storage capacity for equipment and spare parts.

A cover over the Amelup Tourist Sign was completed with the sign being relocated to a higher position on the structure.

Investigations commenced on the standard of the 'low-cost' shoulder widening and sealing project on the Gnowangerup Tambellup Road.
